

Puppy Reservations

Our reservation process is as follows.

1. Fill out our puppy application located on our website.
2. Contact us and let us know which puppy you're interested in. We will be sure to pull up your application ASAP if we haven't done so already.
3. Once your application is approved we will send you some information to look over and as long as you're happy with everything you can choose to set up a video conference with us to see all of the puppies real time and select your puppy or see the specific puppy you're interested in real time. At this point in time you're welcome to ask questions you may have and request to see your puppy's parents.
4. After selecting your puppy you'll place your deposit of \$200 to reserve your puppy. We accept deposits through Zelle (preferred), PayPal (friends and family option), or Cash App. This deposit is non-refundable. You will receive a receipt for your deposit in the mail. Reservation deposits are deducted from the puppy's total price. The remaining balance owed on your puppy is due on pickup. Pickups are scheduled when puppies are 5 weeks of age and puppies go home when they're 8 weeks old. However, puppy pickup dates are always posted with the litters information within the first week of birth.
5. Puppies are not reserved until we receive your reservation deposit. Once we receive your deposit we will mark your puppy "reserved" and no one else will be able to claim the puppy you've chosen.
6. Updates are sent out to adopters who've reserved puppies weekly. They'll be in the form of photos, video clips, or both. You'll also see bonus updates of all the puppies together on our socials.
7. We encourage you to look through our other documents for more information. Be sure to read our puppy pickup document so you're familiar with how pickups will work on gotcha day!
